

WANT TO LEARN?

What is Community Health Evangelism (CHE) and why is it so successful in reaching the lost with the love of Christ? What is the difference between relief-based missions and development? How and when are our efforts to help the poor and needy, well-intentioned as they are, harmful? How can missions avoid creating dependency and promote wellness and ownership on the part of those being helped?

These and other topics will be addressed in a special online training seminar on

March 30-April 2, 2026

This TOT/Seminar is being sponsored by Medical Ambassadors International (MAI).

Recommended for all who have a heart to help the poor and hurting. We invite you to this perspective-changing and thought-provoking training! We believe you will find it to be insightful and beneficial to your own missions programs and to those you serve for Him.

*"If you plan for a year, plant a seed.
If for ten years, plant a tree. If for a
hundred years, teach the people.
When you sow a seed once, you will
reap a single harvest. When you teach
the people, you will reap a hundred
harvests."*
